

COREY HAMAT

Web Developer

Toronto, Ontario | (647) 998 1981 | coreyhamat@gmail.com | <https://coreyhamat.me>

PROFESSIONAL SUMMARY

Experienced front-end developer, passionate about building engaging and intuitive user-facing experiences. Skilled in writing clean, reusable code using JavaScript frameworks like Vue, React and Gatsby. Self-starter with strong communication skills, a desire to understand the bigger picture, and a love for collaboration with fellow developers. Committed to maintaining website integrity through health checks, security patches, and ad-hoc development.

WORK EXPERIENCE

Klick Health

Web Developer

JAN 2022 – NOV 2022

- Created clean, client-side code for fully featured web applications, banner advertisements, and interactive visual aids
- Worked in a fast-paced digital marketing agency, while collaborating with editorial and QA teams to ensure the projects met the clients' design while adhering to regulatory requirements for pharmaceutical marketing campaigns.
- **Technologies Used:** HTML5, JavaScript, CSS3, SCSS, Google Analytics, .NET, Vue, React, Gatsby, Contentful, Figma, Salesforce, Veeva

Ed Mirvish Enterprises, Ltd.

Usher, Ed Mirvish & CAA Theatres

OCT 2021 – MAR 2020

- Maintained a welcoming environment by positively engaging with over 100 patrons per night across multiple venues.
- Communicated important information to the audience and resolved patron's conflicts or issues.

EDUCATION

Juno College of Technology

Web Development Immersive Bootcamp

2021

Ryerson School of Performance

Performance Production Program

2014 - 2020

Recent Projects

Vaughan Pediatric Clinic – Official Website

LIVE

Gatsby | Sanity | graphql | GSAP

- Redesigned the website for the Vaughan Pediatric Clinic, located in Woodbridge ON
- Content for clinic staff, FAQ, and clinic updates managed through Sanity headless CMS

Will it Emo Night?

GIT REPO | LIVE

React | Redux | RESTful API | Styled-Components

- Users search for a song using the Spotify API to view its "energy" and "valence" (how happy/sad a song is) ratings.
- Songs that are considered energetic & sad enough can then be added to the user's "Emo Night Playlist."
- The playlist can then be added to their Spotify Account.

The Beef Shop

GIT REPO | LIVE

Gatsby | Sanity | graphql | Styled-Components

- A sample commerce web page for a Chicago-style Italian Beef restaurant.
- Users can add items from the menu to their cart, which they can view along with the total cost (optionally with an additional tip) on a checkout page.
